

Overcast

This row shows three side-by-side camera views of a street under overcast conditions. The street is paved with asphalt and has white lane markings. On the left, there are brick buildings with arched windows and doorways. On the right, there are modern brick buildings with large windows. In the distance, a few pedestrians are visible on the sidewalks. The sky is a uniform, pale grey, indicating an overcast day.

Sun-Cloud A

This row shows three side-by-side camera views of the same street under Sun-Cloud A conditions. The lighting is brighter than in the overcast row, with some shadows visible on the pavement. The sky is a mix of white and light grey, suggesting a partially cloudy day. The overall scene is more vibrant than the overcast version.

Sun-Cloud B

This row shows three side-by-side camera views of the same street under Sun-Cloud B conditions. The lighting is the brightest of the three rows, with strong shadows cast by the buildings and pedestrians. The sky is a clear, bright blue with some wispy white clouds. The scene is the most vibrant and detailed of the three.
